VIB International Ph.D. Program in life sciences 2010

Want to kick-start your scientific career in a centre of excellence in the heart of Europe, backed by first class research facilities and training? Apply now for a position in our International Ph.D. Program and join our multidisciplinary, international scientific community. And yes, all pictures on this poster are from current Ph.D. researchers. Is yours next?

VIB scientists work at the frontlines of molecular biology, cell biology, developmental biology, structural biology, plant systems biology, genetics, biochemistry and microbiology. Check our website what Ph.D. projects we have in store for you.

Deadline for application: 15 February 2010
